PROJECTS

DEEP LEARNING-BASED CHATBOT | [Link](#) | [YouTube](#)

Apr 2025

- Developed and deployed an intelligent chatbot using deep learning for real-time query handling, enabling seamless conversation flow, context retention, and automated responses for users.
- Integrated chatbot with a React.js front-end, enhancing user experience with interactive UI, achieving a 25% reduction in response latency and optimized back-end processing for real-time interactions..

FAKE PRODUCT IDENTIFICATIONS USING BLOCKCHAIN | [Link](#) | [YouTube](#)

Dec 2024

- Collaborated in a team to design and implement a blockchain-based system for fake product identification, creating smart contracts and managing product data for secure and transparent traceability.
- Developed and optimized blockchain protocols for real-time product verification, enhancing system efficiency and ensuring the authenticity of products across the supply chain.

ACHIEVEMENTS

- Semi-finalist in Start-Up-Premier League among 55 teams and 250+ participants conducted by Entrepreneurship-Cell. Secured third position in Tech Transform among 100+ participants for solving quiz on Logical Reasoning.
- Represented My School in inter-school Cricket tournaments, demonstrating teamwork and sportsmanship.
- Developed discipline, leadership, and resilience through regular training and competitive matches. Worked closely with teammates and coaches to improve skills and game strategy.

ACTIVITIES

ZERO FOOD WASTE INITIATIVE| [Link](#)

Member

Bengaluru,KA
Dec 2022 - Jan 2023

- Contributed to the Zero Food Waste initiative by connecting food-insecure individuals with hotels and community halls, redistributing excess food to those in need..
- Collaborated with local businesses and community organizations to create a sustainable model for reducing food wastage while addressing hunger in the community.
- Organized awareness campaigns and collection drives, ensuring efficient food distribution to over 200+ individuals in the local area
